About ACE Scholarships and the Emerging Leaders Network

At ACE we recognize that the education system in America does not serve all kids well. Parents know what is right for their children and should have the freedom and power to make the choices that best serve their kids. By giving families the freedom of choice, ACE Scholarships continues to eradicate the cycle of poverty that places unjust limits on those with untapped potential. To achieve this, ACE provides children of low-income families with scholarships to quality K-12 private schools and advocates for expanded school choice.

ACE believes in giving low-income students a strong foundation from which they can pursue the American Dream and become contributing members of society. With your support, we can help low-income children write a new story for their lives—one that includes real learning, personal achievement, the celebration of graduation day, and a future with inspiring options—a story about hope.

Thank you for your support of the ACE Emerging Leaders Network, for helping to change lives, and for bettering our communities.
